

Test to Determine How “Mormon” You Are

Very Accurate if Done Honestly

By Moroni Marten

Take the following test to determine what kind of Mormon you are or would make. Please be totally honest. Answering positively to a portion of the questions does not necessarily indicate you would make a good Mormon. It is not until after the complete test is taken and the scores figured that you will get an accurate indication of your level of Mormonism. See the chart at the conclusion of the test to see your Mormon rating.

Circle the point values that match your response
